Dear seminar participant, we are very grateful for your support

This questionnaire is developed by a University. Doctoral Candidates scientifically research the benefits of seminars. Our main interest is what you as a participant experience as most powerful and useful for you and your goals associated with this seminar.

Please write on each page at the top your name and the date, so that we know which pages belong together and that we have a chance to compare your answers before (expectations), after (results), and later (lasting benefits). Only your trainer & institute, the University Professors and the Doctoral Candidates know your name and data. They treat it with scientific secrecy and discretion and keep the highest ethical standards.
